MEMO

To: Public Safety Committee
From: Chief Wayne Chancey/ *Wayne Chancey*
Subject: Burn Training Tower Location
Date: 2/23/09

Walton County Fire/Rescue, using **Splost Funds**, is going to construct a Burn Training Tower with two burn rooms. (See attachment). In an effort not to duplicate training facilities, a meeting was held with Rodney Middlebrooks, Monroe Utilities; Chief Mike Moore, Walton County Fire/Rescue and myself. After a brief meeting and visiting the City Utilities Training site as a group, consensus of the group was that both facilities could be located at the City site. This location would be closer to both Monroe Fire and Walton County Fire/Rescue than the original location off Hwy 11 South, behind the 9-1-1 Center.

Another meeting was held with Julian Jackson, City Administrator; Kevin Little, Walton County Commission Chairman; Chief Mike Moore, Walton County Fire/Rescue; Rodney Middlebrooks, Monroe Utilities and myself. Both City and County projects were reviewed and again all agreed that in the best interest of the City and County, both projects should be combined.

This request is that the Council allow the City Administrator, City Attorneys', Walton County Chairman and the County Attorneys' work out an agreement to allow combination of the Training Projects.

The time frame for construction of the Burn Training Tower will be approximately one year and a half before funding will be available through **Splost Funds** allowing ample time for planning.

A Burn Training tower is sorely needed within the County due to EPD restrictions have all but eliminated burning of structures (houses) for training purposes. Firefighters Standards and Training mandate that all firefighters have annual live fire training which must now be obtained at the Georgia Fire Academy in Forsyth, Georgia which is very inconvenient for all Fire Departments within Walton County.

This facility will eliminate fire personnel from being out of the county, thus reducing costs and keeping firefighters within their fire territories.

The Assistant Fire Chief

The Assistant Fire Chief features a tower, residential section, and burn room annex. The residential section and annex each offer a burn room for multiple training scenarios. The four-story tower and residential section provides many opportunities for a variety of training exercises including laddering, rappelling, roof penetration, and high-angle rescue operations.

Tower

Dimensions:	12'L x 22'W x 40'H
Roof:	Flat
Roof Live Load:	100 PSF
Wind Load:	25 PSF
Deck Live Load:	100 PSF
Parapet Roof Guard with Chained Opening	
Interior Stair to 4th Floor	
Interior Fixed Ladder, 4th Floor to Roof	
(1) 3'x7' Exterior Steel Door	
(2) 3'x4' Window Openings with Steel Shutters	
(1) 4'x4' Roof Chop-Out Curb	

Residential Section

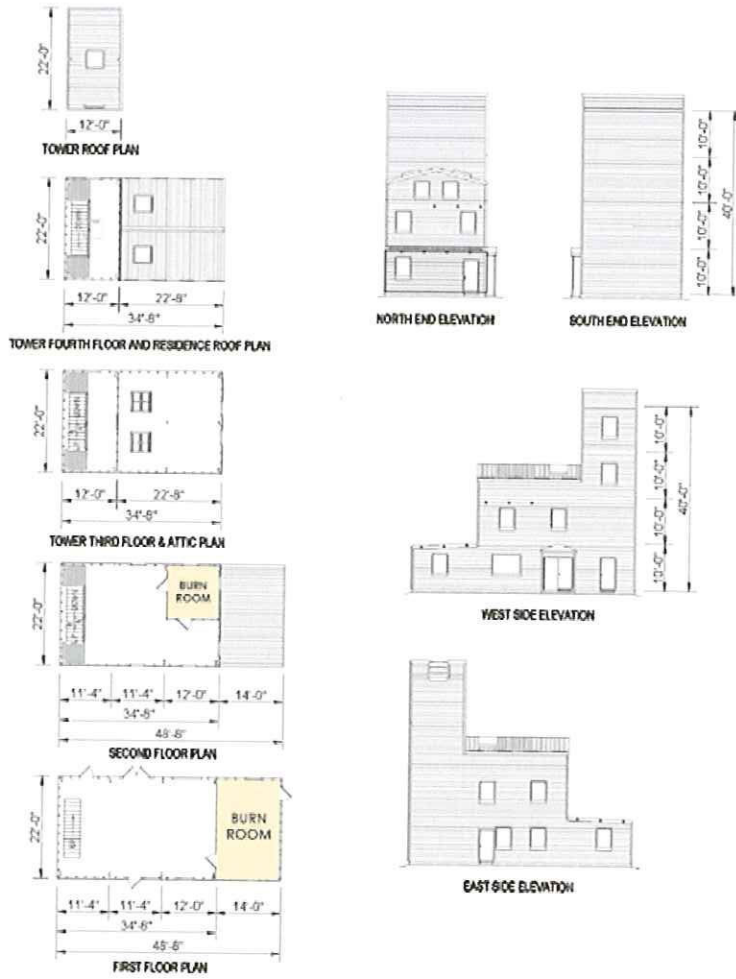

Dimensions:	22'8"L x 22'W x 27'7-3/4"H
Roof:	16° Gable
Roof Live Load:	100 PSF
Wind Load:	25 PSF
Deck Live Load:	100 PSF
Roof Ladder Fender Brackets	
(1) 3'x7' Exterior Steel Door	
(1) 6'x7' Exterior Double Leaf Steel Door	
(3) 3'x7' Interior Steel Doors	
(8) 3'x4' Window Openings with Steel Shutters	
(1) 6'x4' Window Opening with Steel Shutters	
(2) 3'x3' Hinged Gable Louvers	
(2) 4'x4' Roof Chop-Out Curbs	
(2) Drywall Curbs	
(1) 2nd Floor Burn Room	
(1) Westec™ Insulation System	
(1) Scout Temperature Monitoring System	

Burn Room Annex

Dimensions:	14'L x 22'W x 10'H
Roof:	1/2" in 12" Single Pitch
