SUBMITTED QUESTIONS

Sidewalk Improvements – Davis Street; S Madison Ave & Mears Street in Monroe

GDOT PI 0019856

The following questions were submitted prior to the Question Due Date of August 7, 2024 at 5:00 p.m. (EST) for the Request for Qualifications (RFQ) for Engineering Design Services for the City of Monroe's Davis Street; S Madison & Mears Street Sidewalk Project. Each answer provided is to become an official addendum of the RFQ document.

1. ***Is there a preferred side of each roadway for the new sidewalk?*** - The preferred side of roadway for the new sidewalk is the south side of Davis Street, west side of S. Madison Ave, and the north side of Mears Street.
2. ***Does the project include upgrades or modifications to the existing sidewalk along the north/east side of South Madison Avenue?*** - Possibly, depending on funding availability.
3. ***Is there new development proposed along the south/west side of South Madison Avenue where the existing buildings are being demolished?*** - There is potential future development.
4. ***What is the desirable width of the proposed sidewalk?*** - 7-foot sidewalk; 5-foot concrete and 2-foot brick inlay to mirror South Broad Street design.
5. ***Will the brick buffer, crosswalks, and lighting that are present along South Broad Street be incorporated into this project?*** - Yes.
